

## IEEE Geoscience and Remote Sensing Letters 副主编

Dear Liang,

Congratulations!

You are now appointed as IEEE Geoscience and Remote Sensing Letters Associate Editor. This appointment is for three years effective immediately.

I have already updated your status in the ScholarOne Manuscripts system. The operations manual is available here

<https://dl.dropboxusercontent.com/u/2196609/Permanent/S1MAdminGuideIEEE.pdf>

Please take your time to browse through the it, and pay special attention to the duties and functions related to Associate Editors.

We are encouraging authors to use ORCID so, if you do not have one already, please updated your profile in the SM system.

As IEEE GRSL Associate Editor you are expected to be an IEEE GRSS Senior member. Please update me about your current situation as soon as possible.

Could you please send me a list of the topics you are willing to handle? Please make it as comprehensive as possible. Also, a very short list of up to five words ("words", not "keywords") is needed to inform in both the website and the back cover of the Journal.

I will assign you a manuscript as soon as possible, so you can start with the SM system. Please start assigning manuscript as soon as they arrive to your AE Center. It is a good practice to invite at least three potential reviewers, and to never invite more than one of those preferred by the authors.

My Skype ID is acfrery, and also use WhatsApp (+55 82 99606-7676). Please do not hesitate contacting me whatever I can be of help. My preferred email address is "acfrery@gmail.com", and that is also the Hangouts account you may contact me if you need.

Welcome!

Alejandro
